

Comenius Project: Are you a CO ₂ nsumer?			Activity report 2011-2012		
Number of participants:		Organising School:			
Pupils	7	Alonso De Ercilla, Ocaña, España		O	
Teachers & staff	2	Middenschool Sint-Pieter, Oostkamp, België		x	
Other participants	0	Niepubliczne Gimnazjum A.J. Czartoryskiego, Pulawy, Poland		O	
Type of activity			Date:		13/10/2011
staff meeting	O	meeting with parents	O	meeting with pupils	O
classroom activity	x	excursion, study visit,...	O	other	O
Participating class(es):		2 A1	Teacher(s)		Kathleen Puype
Description of the activity:					

Sustainable energy game

We have started the subject: how to work with electricity?

One central theme within this subject is alternative energy. We have been playing the 'sustainable energy game'. This game is based on the traditional goose board game. The game consist of 'yes or no' questions.

Discussions are held and practical activities are carried out. Meanwhile 'your energy gets lost'.

When a question is answered correctly the players get one or more white beans. Beans contains lots of energy! With this game teachers can teach new content or even test if the pupils do understand the new learning content.
