Description of the activity: Logo designing					

Students of classes 2a and 2b prepared a logo for the "Are you a CO₂nsumer?" project.

They started the activity with the preparation of sketches of the logo. They used computers programs such as Dia and Gimp to transform the sketches into graphic files.

Our students created the logos during two lessons. They had an opportunity to use their imagination and could practice the skills they acquired during Information Technology lessons.

The students put a lot of effort into the preparation of the logo. Students enjoyed the activity which gave them a lot of fun.
